5 THINGS TO KNOW

WELCOME TO METRO BOSTON

KRISTIN TOUSSAINT, REPORTER

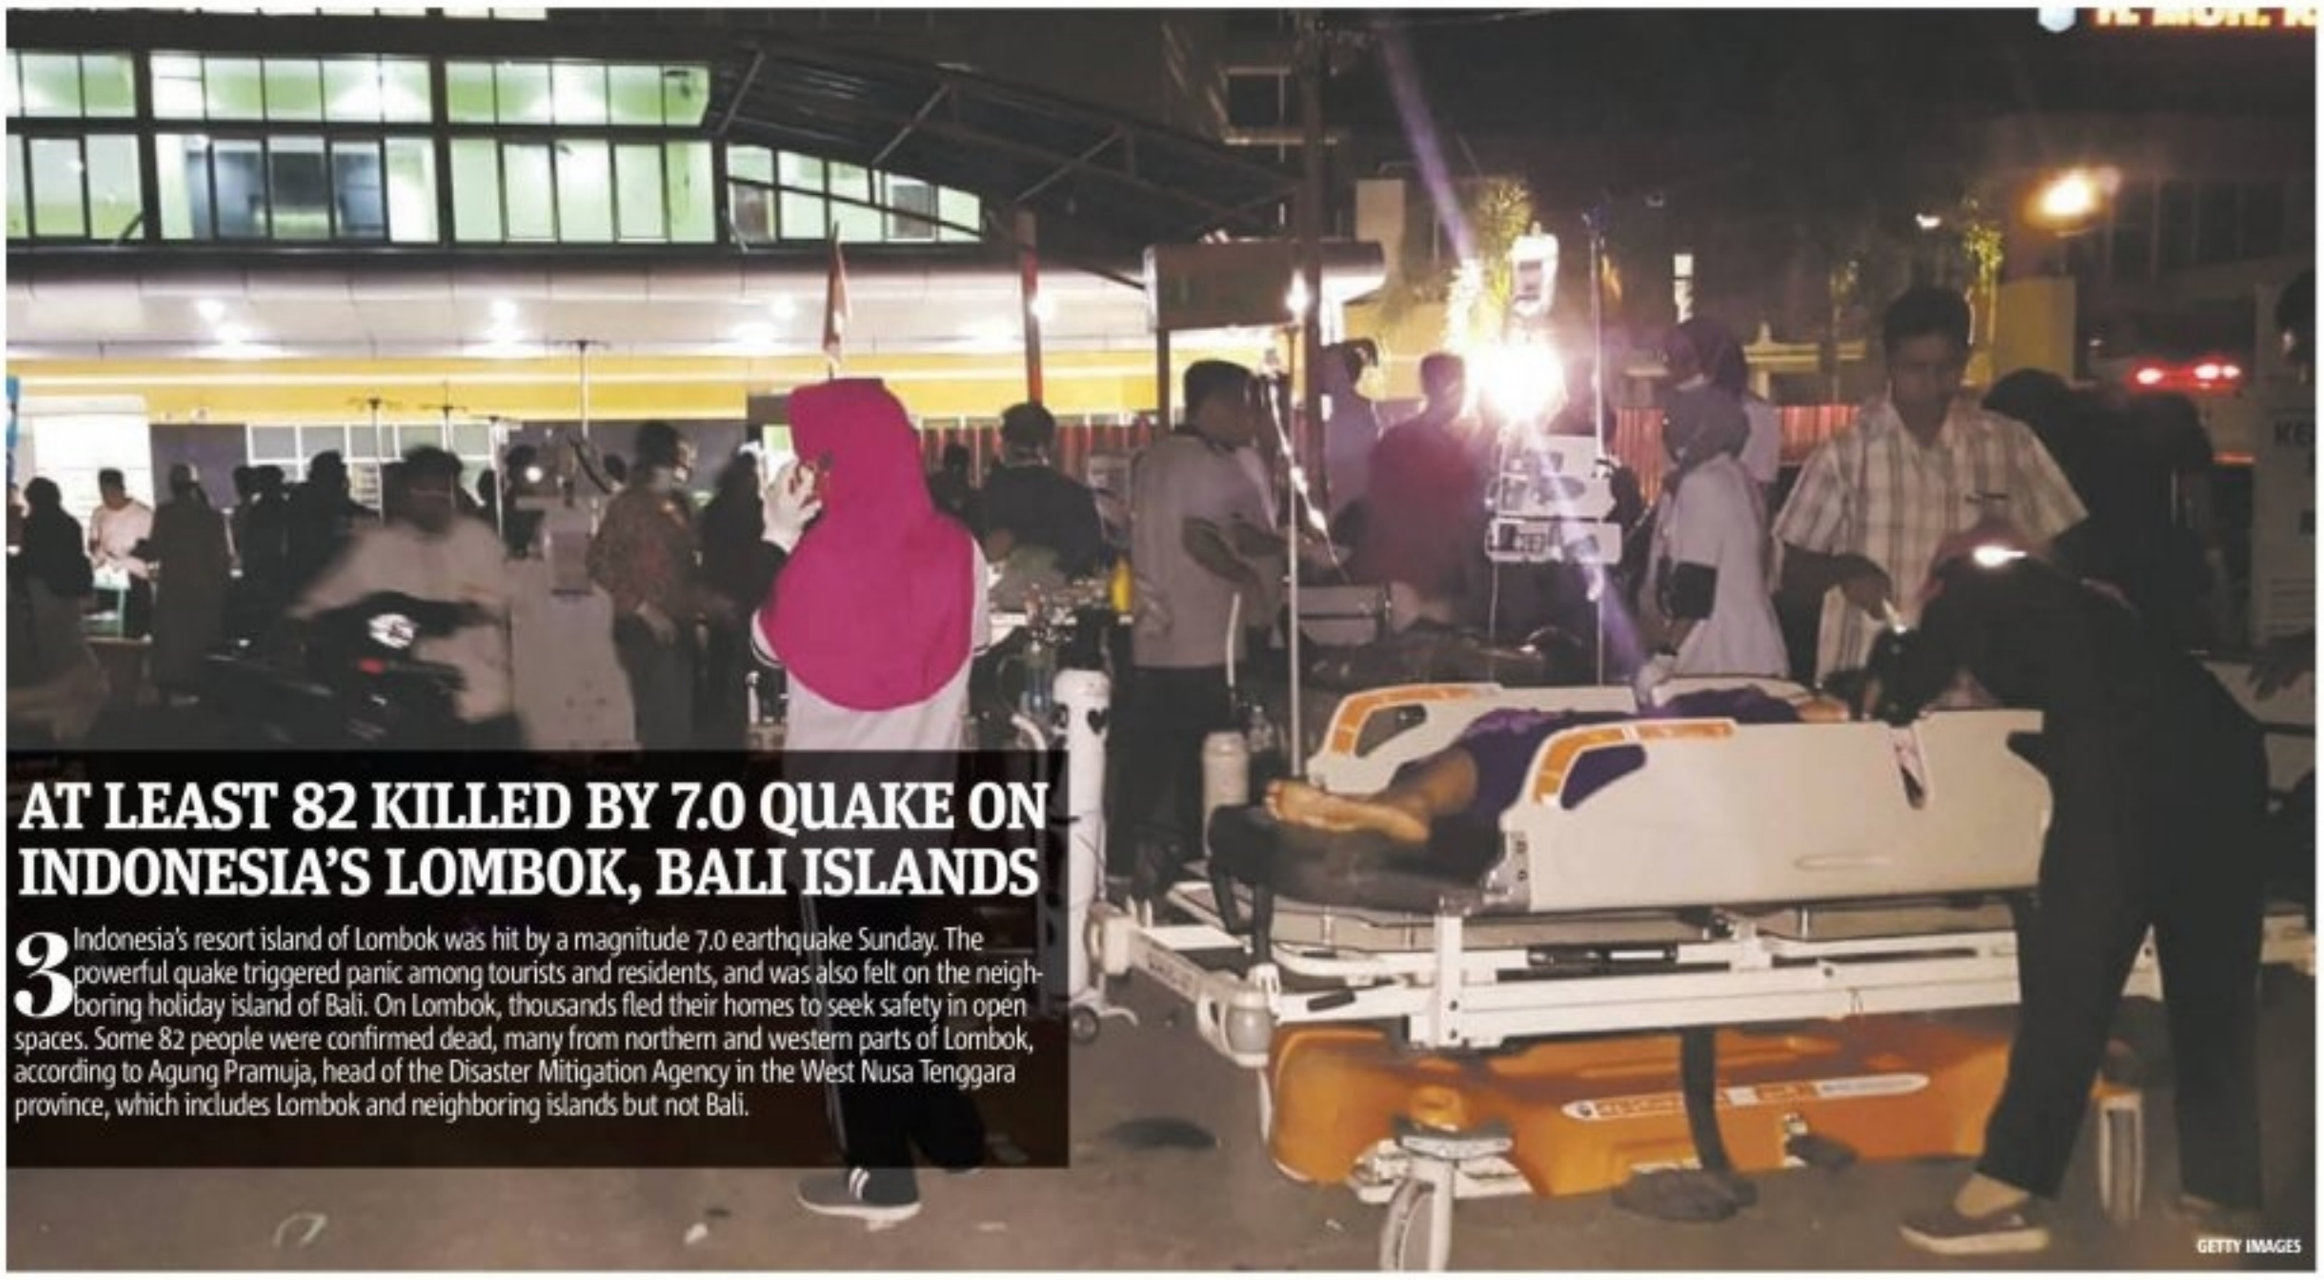
Have you ever heard of cannabis tourism? I'll admit that I hadn't — until I found 420 Suites, a cannabis-friendly vacation rental company in Boston. The term definitely makes sense, with legal recreational marijuana in Massachusetts certainly appealing to visitors from states where the laws have not progressed as much. And 420 Suites sees a world of weed-friendly tourism in Boston, though it's only not solely for out-of-towners, they say. So what does cannabis tourism actually entail? Read more inside and at **metroboston.us.**

CAMBRIDGE, SOMERVILLE ISSUE CEASE AND DESISTS

1 Bird scooters may soon have to leave their nests in Cambridge and Somerville. This week, both Cambridge and Somerville have sent cease-and-desist letters to Bird, the company behind the rideshare electric scooters that appeared on city streets without warning recently. "The City of Cambridge issued a cease and desist notice to Bird ordering them to remove their scooters from Cambridge within 48 hours," a city official said in a statement Wednesday. The city said deployment of Bird scooters "must occur in a regulated and controlled manner, particularly given concerns around safety and blocking of access to the city's publicly owned property, streets and sidewalks." Cambridge officials met with Bird representatives earlier this week. While the meeting was "positive when it comes to overall goals and objectives," a city spokesperson said, Cambridge officials are concerned about safety, equity, operations and data sharing. Cambridge's cease and desist of Bird scooters, issued Aug. 1, came on the heels of Somerville's, which issued a cease-and-desist to the company, a day before. KRISTIN TOUSSAINT

TWENTY KILLED IN PLANE CRASH IN SWISS ALPS

2 All 20 people on board were killed when a small vintage plane crashed in the Swiss Alps, police said Sunday. Three Austrians and 17 Swiss were on board the trimotor JU-52 aircraft, built in the late 1930s as a military aircraft and later used to operate scenic and charter flights, when it crashed shortly before 5 p.m. Saturday on the west side of the Piz Segnas mountain in the canton of Grissons. The plane had been returning from Locarno near Switzerland's southern border. "Yesterday was the worst day in the 36-year history of JU-Air," airline Chief Executive Kurt Waldmeier said at a news conference Sunday. "We have all suffered a very great loss." Police said they were not aware of any distress call and had not yet determined the cause of the crash, which occurred hours after a family of four was killed when their small plane went down further west in the Alps. The investigation, complicated by the vintage plane's lack of a "black box" flight recorder, will take several days.



AT LEAST 82 KILLED BY 7.0 QUAKE ON INDONESIA'S LOMBOK, BALI ISLANDS

3 Indonesia's resort island of Lombok was hit by a magnitude 7.0 earthquake Sunday. The powerful quake triggered panic among tourists and residents, and was also felt on the neighboring holiday island of Bali. On Lombok, thousands fled their homes to seek safety in open spaces. Some 82 people were confirmed dead, many from northern and western parts of Lombok, according to Agung Pramuja, head of the Disaster Mitigation Agency in the West Nusa Tenggara province, which includes Lombok and neighboring islands but not Bali.

NEED-TO-KNOW INFO ABOUT MASS. TAX HOLIDAY

4 A Massachusetts sales tax holiday has finally been approved by the state legislature. Sen. Bruce Tarr, a sponsor of the bill, said the amendment is meant to offer "a brief reprieve from the sales tax burden on the citizens of the commonwealth." The law does not go into effect until 2019. Beginning next year, the legislature will not have to vote on whether or not to have a sales tax holiday in Massachusetts, but it will still have to pick the dates. Lawmakers will have to set the specific August sales tax-free weekend by June 15. The holiday is a two-day break from the state's 6.25 percent sales tax, but it doesn't include tobacco, marijuana, vehicles, boats, meals or items that cost more than $2,500. Tarr, a Gloucester Republican, said that the holiday would benefit families as they make their back-to-school purchases and boost retail across the state in general. "It's important we take the opportunity to boost demand, give consumers some relief and support our Main Street retailers who are very important employers in each community," he said, according to State House News Service. VENEZUELA ARRESTS SIX OVER DRONE EXPLOSIONS

5 Venezuela's government said Sunday six people had been detained over drone explosions at an event attended by President Nicolas Maduro as his political opposition warned of a possible crackdown after he accused his adversaries of seeking to assassinate him. State TV Saturday showed the socialist leader appearing startled by what seemed to be an explosion while giving a speech in Caracas. One of the six suspects detained had a pending arrest warrant for a 2017 attack on a military base, and a second had been arrested in 2014 for participating in anti-government street protests, Interior Minister Nestor Reverol said. Opposition critics said the government has in the past used such incidents as a pretext for heavy-handed actions against critics, including jailing some of the country's best-known leaders. "We warn that the government is taking advantage of this incident ... to criminalize those who legitimately and democratically oppose it," wrote the Broad Front opposition coalition in a statement published on Twitter.

420 Suites brings cannabis-friendly vacation rentals to Boston

Cannabis tourism may soon take over Massachusetts, and 420 Suites says it wants to be on the front lines of pot trips in Boston.

Revolutionary Clinics in Somerville tour. REVOLUTIONARY CLINICS

Boston has long been a vacation destination, but legal marijuana may draw in even more visitors to all over Massachusetts — and businesses like 420 Suites are ready to cater to cannabis tourism.

420 Suites, which debuted at Boston's recent CannaCon, is turning the typical vacation rental into a cannabis getaway. With fully-furnished cannabis-friendly rental units throughout the city, from East Boston to Back Bay, a tourism trip with a weed twist awaits.

Inside every rental unit, a welcome basket will great each guest. But instead of just sample-size soaps, the accoutrements are cannabis-themed: hemp-based toiletries, CBD chocolates and gummies, eye drops and a free Uber ride to and from, along with a discount at a marijuana dispensary.

"420 suites is essentially like a cannabis-friendly Airbnb company," explained Sarah Dunphy, director of business development at 420 Suites. "We have different apartments all over the city where it's just like a vacation rental, a fully-furnished apartment, but it's cannabis friendly, which means travelers can stay with us and we provide a safe, comfortable place to consume while traveling."

While recreational marijuana is legal across Massachusetts, there are still no recreational retail dispensaries. That means that for now, the cannabis tourism experience 420 Suites can offer is limited to those who have a medical marijuana card.

420 Suites is partnering with Revolutionary Clinics, a medical marijuana dispensary in Somerville, offering free rides to-and-from the rental to the dispensary as well as special discount promotions for their products. For now, only guests with a medical marijuana card will get the ride to the clinic and the chance to shop. Though that may not appeal to every would-be cannabis tourist, it still accounts for a large number of clientele, Dunphy said.

"We do have a lot of clients come into Boston for medical reasons who are genuine cannabis-care patients who need it as their medicine," she said. "They can stay with us because no one else is really advertising as a safe place to consumer their medicinal cannabis, but we are."

Some of the 420 Suites rentals are smoke-friendly, but not all, since even cigarette smoking is banned in certain buildings. But this doesn't really limit a guests' marijuana consumption.

"It's not just about smoking — it's hemp, it's CBD oil, it's edibles, it's vapes," she said. "Just because it's not smoke friendly doesn't mean it's not cannabis friendly."

This is also part of what 420 Suites hopes to offer: an education into the world of cannabis.

If you don't have a medical marijuana card but still want a cannabis-themed trip as soon as possible, you can indulge in the CBD products available via 420 Suites, which are legal.

Costly Joint-Pain Injections Replaced By New $2 Pill

New pill boosts the same lubricating joint fluid as expensive and painful injections - without using a needle. Users report dramatic relief from swelling, pain and stiffness without side effects and expense.

By Jack Isler, M.D.
Health News Syndicate

HNS—A popular needle injection for people with joint pain is now available in an inexpensive nonprescription pill. The breakthrough came when researchers discovered a way to deliver the injected "relief molecule" through the digestive system.

Top US clinics have used these needle injections for years because they deliver powerful relief. Unfortunately, the shots are painful and expensive. They also only work on the joint being treated.

The new pill, called Synovia, delivers the same "relief molecule" as the injections. However, it has some impressive advantages. First, it's inexpensive and nonprescription. Also, relief is delivered to every joint in the body because it enters the bloodstream through the digestive system.

This gives it the ability to reduce a much wider variety of pain. Users report greater flexibility and less stiffness in their knees. Hands and shoulders move pain-free for the first time in years. Even neck and lower back pain improve dramatically.

All this without spending over $600 on needle injections and taking trips to the doctor every week.

The medical community is very excited about this new breakthrough. Dr. Jacob Moss says, "Synovia is a great option for those suffering from joint pain. Injections are usually a last resort because of the pain and expense. However, Synovia should be taken at the first sign of discomfort."

New Discovery

The needle injection procedure has been given to hundreds of thousands of patients over the last several years.

Doctors use the shots to boost a critical element of the joint called synovial fluid. This lubricating fluid is found between the cartilage and bones of every joint.

According to the firm's head of R&D, Mike McNeill, "Researchers have been working for years to find a way to boost this luid noninvasively. The problem was the molecule used in the injections was too large to absorb into the bloodstream."

Top scientists conquered this obstacle by finding a smaller form of the same molecule. This new glucose form is easily absorbed by your stomach and intestines!

Now those who suffer from joint pain can get relief without painful injections. At less than $2 per day, early users like Steve Young are impressed. He says, "I've tried more pills than I can count, without any luck. Synovia is different. My knees and hands haven't felt this good in years!"

Impressive Clinical Results

Leading clinics use injection therapy because it works. Recent clinical trials show the pill form also delivers major relief.

One example is a landmark study out of Europe. In the study the active ingredient in Synovia was compared to a popular NSAID pain reliever. The goal was to see if it could reduce pain and swelling around the knee. The results were incredible!

After just 30 days, more than 8 out of 10 people who took Synovia's active ingredient had NO swelling. However, only 2 out of 10 people who took the NSAID experienced reduced swelling.

The study also looked at cases of severe swelling. Amazingly, zero cases of severe swelling were detected in the group taking the active ingredient found in Synovia. This means it was 100% effective for the cases of severe swelling!

In contrast, 9 out of 10 people taking the NSAID still had severe swelling. McNeill points out, "The impressive thing about this study is the active ingredient wasn't tested against a fake pill. It was up against one of the most popular NSAIDs people use every day. It's easy to see why people in pain are excited to get relief without an injection."

The New Way It Delivers Relief

Getting relief without injections has big advantages. The most obvious is avoiding being stuck by a large needle every week for 5 weeks.

Another downside of injections is the doctor can "miss". The needle needs to be inserted into a precise spot in the joint to work. Otherwise, you risk the treatment being ineffective.

However, boosting your lubricating joint fluid by taking a pill delivers relief to all your joints, not just one.

There's an additional reason the active ingredient in Synovia works so well – it nourishes the cartilage.

NO MORE NEEDLES: A popular needle injection pain-killer for joint pain is being replaced. The key molecule in these injections can now be delivered by taking a new low-cost pill called Synovia.

McNeill says, "This is vital because cartilage does not have blood vessels. The fluid in the joint serves two very important pain-relief roles: lubrication and giving the cartilage the nutrients it needs."

Approved By Leading Doctors

The new delivery system for this molecule has caught the attention of leading medical doctors.

"Needle injections for joint pain have been around for years because they work. Being able to get the same relief molecule through a pill is amazing. Injections may be a last resort, but I'd recommend Synovia at the irst sign of pain," said Dr. Marie Laguna.

Dr. Moss adds, "The research behind the active ingredient in Synovia is very exciting. This product is a great choice for those who haven't had success with other joint pain treatments."

110% Money Back Guarantee

Amazing feedback from users of Synovia has generated a wave of conidence at the company. So much so that they now offer Synovia with a 110% money back guarantee.

The company's president, Michael Kenneth says, "We've seen how well it works. Now we want to remove any risk for those who might think Synovia sounds too good to be true."

Simply take the pill exactly as directed. You must enjoy fast acting relief. Otherwise, return the product as directed and you'll receive 100% of your money back plus an extra 10%.

How To Get Synovia

Today marks the official release of Synovia in Massachusetts. As such, the company is offering a special discounted supply to everyone who calls within the next 48 hours.

A Regional Order Hotline has been set up for local readers to call. This is the only way to try Synovia with their "110% money back" guarantee.

Starting at 6:00 am today the order hotline will be open for 48 hours. All you have to do is call TOLL FREE 1-888-973-8196 and provide the operator with the special discount approval code: SYN18. The company will do the rest.

Current supplies of Synovia are limited, and callers that don't get through to the order hotline within the next 48 hours may have to pay more and wait until more inventory is produced. This could take as long as 6 weeks.

UNHEALTHY: No lubricating fluid or cartilage leads to painful bone-on-bone rubbing.

HEALTHY: Synovia's active ingredients lubricate joints and nourish cartilage!

New Logan restaurants, stores coming soon

You'll soon have more food options at the airport thanks to a slew of eateries opening in some terminals.

KRISTIN TOUSSAINT
kristin.toussaint@metro.us

More than a dozen eateries are set to open at Boston's airport by the end of 2018 and in 2019. ELKUS MANFREDI ARCHITECTS

Finding great airport food can be one of the more frustrating experiences of travel, but a new lineup of Logan Airport restaurants on the horizon hopes to change that.

Boston Logan Airport is set to get more than a dozen new airport food options and a few new retail spots by the end of 2018 and in 2019.

The additions to the airport experience will be a mix of local Boston-area favorites as well as regional brands, according to Marketplace Logan, an affiliate of New England Development and manager of the Boston Logan Concessions Program.

Before we get to the new Logan Airport restaurants, let's talk retail. Boston-based athletic company New Balance will open its first-ever airport retail story in Logan Airport, just in case you need some new kicks on the way to your vacation.

New England Collections, a Logan Airport gift shop already present in Terminal A, will debut two additional airport gift shops as well. Both of those retail changes will be available in 2019.

Now, onto the nourishment: the airport food.

What to expect from 'Better Call Saul' season 4

AMC's popular "Breaking Bad" prequel may soon be venturing into familiar territory.

ANDREW HUSBAND
letters@metro.us

Will any familiar faces show up this season? Tune in to find out. ALL PHOTOS AMC

While Vince Gilligan's "Breaking Bad" remains one of the best television dramas of the past decade, the prequel series "Better Call Saul" is fast approaching its very own pedestal. That's because the spin-off all about how Jimmy McGill becomes Saul Goodman (Bob Odenkirk), the attorney for criminals who helped build Walter White's (Bryan Cranston) drug empire, is just as great.

On Monday, the fourth season for Gilligan and co-creator Peter Gould's show, which started six years before "Breaking Bad," finds the Jimmy mourning the death of his brother, Chuck McGill (Michael McKean), while struggling to find work as an unemployed and disgraced lawyer. There are still a few years left to go before he transforms into the man viewers first met in 2009, but judging by what we know about season four, it will happen very soon.

The show will enter the "Breaking Bad" timeline

In a special issue of Entertainment Weekly commemorating the 10th anniversary of "Breaking Bad," Gilligan revealed that "Better Call Saul" season four will finally crossover with the other series' timeline. "I picture two giant circles moving together, converging into an ever-largening Venn diagram, and that Venn diagram represents the overlap," he said. "That area of overlap is getting larger and larger."

Gould added that they're "still a few years out from Walter White, but you'll see some things that will definitely ring a bell." This, Gilligan noted, will play out in "a subplot that very squarely gets into 'Breaking Bad' territory and brings us into the world – or at least points us on a path toward the world of Walter White." Specifically, the previously mentioned (but never before seen) character Lalo (Tony Dalton) will flesh this out in season four.

But will we see Walter or Jesse?

As Gould previously warned, season four is "still a few years out from Walter White," but that doesn't mean the new season will totally avoid any and all reference to him or his eventual partner in crime, Jesse Pinkman (Aaron Paul). Fans have been hoping for a cameo by either character since "Better Call Saul" first premiered, and while the potential for such an occurrence has always been there, it has never been as strong as it is now.

Cranston visited the set while Gilligan and company were filming season three, setting off a flurry of rumors about White's arrival on the "Better Call Saul" scene.

The actor was simply visiting, of course, but the co-creator took notice of the buzz. He told Entertainment Weekly that he "desperately" wanted to see Walter and Jesse in the show, as did everyone else. "Peter wants it, the writers do, the actors do," he added.

Jimmy will become Saul

A prediction whose outcome is all but guaranteed, however, is that season four will finally see McGill's first steps toward becoming Goodman. During a recent set visit, The Daily Beast noted an office storefront window with a sign that read, "SAUL GOODMAN, ATTORNEY AT LAW." When asked about it, Odenkirk carefully explained, "You are going to see a scene in Saul's office from the time period of 'Breaking Bad.'" There are still a few years to go before the prequel series catches up to its predecessor, but judging by Odenkirk's explanation, the scene — and set — in question may stem from Gilligan's reveal that season four would flash-forward to the "Break Bad" timeline on occasion. So yes, it sounds like Jimmy will be stepping into Saul's shoes.

Is Kim on the way out?

One of the most pressing questions viewers have had since season one is, "Who is Kim Wexler, and what's going to happen to her?" Jimmy's on-again-off-again partner, played by Rhea Seehorn, has been a pivotal force in Saul's life. Yet she's nowhere to be found in "Breaking Bad." Following season three's car accident and the death of Chuck, Kim is struggling to help Jimmy process his grief. With the eventual end of "Better Call Saul," which AMC has already renewed for a fifth season, on the horizon, it's inevitable that she will finally leave him for good at some point.

How to stand out on the Common Application

ISTOCK

The popular college application is accepted by hundreds of schools across the country and was just released on Aug. 1.

PAT KING
patrick.king@metro.us

While recent high school graduates are preparing for the new challenges of college, juniors are starting the college-application process.

The official starting bell for applications rings every year on Aug. 1, as the Common Application is released to students across the country. This online application partners with hundreds of schools to make the process easier for students and their families to apply to multiple schools.

We spoke with Casey Neal, the senior director of higher education admissions-counseling service Collegewise, about how students can make their Common Application stand out to admissions officers .

Show off your personality

Neal says students should pay close attention to the Activities portion of the Common Application. She says many applicants choose to merely submit lists of sports and other extracurriculars they were involved and don't take the opportunity to paint a more vibrant picture for admissions offices.

"It only allows you 150 characters to describe each activity that you do," says Neal. "But there are a lot of ways that you can use that space effectively."

For instance, if you did not play soccer but supported your friends on the team, you can show just how kind and supportive a person you are even though it's not what you'd consider a conventional activity.

"It's much more interesting for me to hear things like 'loyal bench warmer' ... That gives me a sense of that's why you do it," explains Neal.

"You're not being recruited for soccer, but you clearly make an impact in your own way."

Take advantage of optional essays

Many schools will offer an optional essay on their section of the Common Application. Students should use this opportunity to really make themselves stand out. Neal believes these essay sections should be treated like litmus tests for students to see if they really are a good fit or not.

"You shouldn't have to reverse engineer yourself to the school," say Neal. "This supplement is their way of saying, 'This is the kind of kid we love.'

"Columbia is a great example. They ask, 'What plays, shows and exhibits have you been to in the last year?' If a kid only says that they went to go see a Justin Bieber concert, they are probably not really the fit for a school that's in Manhattan and for a school that is looking for someone who will thrive in an urban environment."

The Common Application is available for students to download now at commonapp.org. If you need more help filling out the application, connect with a Collegewise adviser.

FANTASY FOOTBALL ADVICE

OPINION

BILL DUBIEL

Bill Dubiel is a fantasy football expert at Rotoballer.com and Metro.us

Ronald Jones is getting plenty of preseason buzz. GETTY IMAGES

Welcome back fantasy football fans! With training camps underway, it's time to start getting ready to chase another championship. Don't forget to check out Rotoballer.com for all of the tools you need to get the edge on your league mates.

Don't sleep on Walker

Delanie Walker is certainly no spring chicken entering his age-34 season in 2018, but the Titans certainly didn't just sign him to a two-year, $17-million extension for him to be a blocking tight end. Walker has very quietly been one of the most consistently good players in fantasy for nearly half a decade. Over his last four seasons, he's had at least 63 catches for 800 receiving yards on 100 targets every single year. That kind of consistent usage is rare, especially at the tight end position. He's going off most boards as the seventh or eighth tight end drafted, and while that's probably indicative of his relative lack of upside (I don't think we can expect a sudden 1,000-yard season), I'm very comfortable waiting until Round 7 or 8 and pulling the trigger on Walker. He is still Marcus Mariota's most trusted target, and that should be the case for the entire season. He may not be as flashy as guys like Travis Kelce or Rob Gronkowski, but I advocate loading up on WRs and RBs in the first few rounds and waiting on a rock-solid option like Walker for your tight end in the middle rounds.

New back in Tampa Bay

There are plenty of concerns about the relative logjam at the running back position in Tampa Bay, but for me they're unfounded. If the Buccaneers had any plans of making Peyton Barber or Jacquizz Rodgers their top option, they wouldn't have spent a high second round pick on the explosive Ronald Jones III. With a profile and running style similar to Jamaal Charles, Jones should have no problem proving himself the top runner in an offense that should produce plenty of opportunities for fantasy points. Charles Sims will likely steal some passing-down work, but this offense should be Jones' by the end of training camp. He's currently going off the board as the RB27, which makes him a great value option since he should be able to produce top-20 running back numbers.

Hate the Drake

I don't necessarily have a problem with Kenyan Drake so much as I have a problem with where he's being drafted. Right now, the Miami running back is going off the board as the RB18, ahead of guys like Derrius Guice, Jay Ajayi and Alex Collins. The Dolphins didn't sign veteran Frank Gore to be a back-up, and they've already said that the two backs are competing for "1A/1B" supremacy. Add in rookie passing-down specialist Kalen Ballage, who has impressed coaches already in training camp, and I simply don't see how Drake gets the touches to back up his current ADP. Drake should certainly be drafted, but closer to Round 8 or 9, not where he's currently going in Round 5 or 6. In addition to the competition he'll also be on what Vegas is currently projecting to be one of the worst teams in the NFL, so it's not like he'll be able to help the Dolphins grind out yardage in close games. They'll likely be playing plenty of catch-up this season, and Drake won't be on the field in many of those situations.

Draft Sleepers of the Week

Ty Montgomery, RB, Green Bay Packers - Montgomery has the passing-down job locked up in an Aaron Rodgers-led offense and is being drafted in Round 10 or later. Sometimes it really is that easy to find value.

Ricky Seals-Jones, TE, Arizona Cardinals - He should be the second go-to option behind Larry Fitzgerald in that offense and proved he can make an impact down the stretch last season. Great TE2 lottery pick.

Josh Doctson, WR, Washington Redskins - Led the team in red zone targets last year and should be able to improve upon his abysmal catch rate in 2018.

Patriots training camp: Secondary not shored up

When Tom Brady passes for over 500 yards, throws three touchdown passes and has zero picks – it should be more than enough for the Patriots to win a football game.

That was not the case in Super Bowl LII six months ago, as even though No. 12 lit up the Eagles secondary – the Patriots' secondary was even worse on the other side of the ball.

Nick "Bleepin'" Foles looked like a young Aaron Rodgers while shredding the Patriots defense that night in Minneapolis, completing 28-of-43 passes for 373 yards, three touchdowns and one pick on his way to a Super Bowl MVP trophy. Patriots fans hoping for a massive overhaul of the secondary this offseason have to be disappointed, though, as the only fresh face likely to get big minutes on the field is cornerback Jason McCourty - the brother of safety Devin McCourty. The new McCourty was more or less released in consecutive seasons by the Titans and Browns, so it remains to be seen if the 30-year-old is still a starting level cornerback in the league.

For better or worse, the Pats love to bring in players they are familiar with rather than reeling in splashy outside names.

"To me it makes more sense than Richard Sherman," the MMQB's Albert Breer told 98.5's Toucher and Rich. "McCourty is a little bit of a bigger corner. A big corner had been a need for [the Patriots]. A big reason why they would like McCourty is that they have good intel on him. They like going after players that they know which is why they often bring in so many players from within in the division. Because his brother plays here, because he played for Greg Schiano at Rutgers, because he played under John Robinson – who is Bill Belichick's old college director in New England – it all lines up."

Jason McCourty is currently listed as the starting right cornerback on the Patriots' depth chart with Stephon Gilmore sitting as the starting left corner. Gilmore was one of the few Patriots players on defense that had a strong Super Bowl performance and he showed steady improvement late in the season and in the playoffs.

Eric Rowe also returns at corner, and so far he has been one of the stand-outs for the Pats in training camp.

The McCourty twins anchor the Patriots' secondary. GETTY IMAGES

Eddie Pleasant, who comes over from the Texans, should challenge Jordan Richards for a role at backup safety. Patrick Chung and Duron Harmon also return for the Pats. MATT BURKE
